Department-wise details of student centric methods used for enhancing learning experiences

<i>Department</i>	<i>Methodology used for experiential learning, participative learning and problem solving methodologies</i>
<i>Economics</i>	In-session online quizzes have been used to enhance participation and problem solving. Projects have been assigned to students to give them a feel of real life datasets. The Economics Department teaches subjects such as Data Analysis and Research Methodology where students prepare research papers/projects either done individually or in groups as part of their internal assessment. During this academic year faculty members had adopted online teaching methods. Teachers taught MS Excel, R and other softwares through google meet or zoom app. The Department of Economics had organized a short-term certificate course on ‘Data Analysis Using R’ that was designed for beginners who have no prior knowledge about R. Students learned about managing data sets, cleaning and visualizing data and doing econometric and statistical analysis online. The department also organised a A talk on ‘Macroeconomics: Theory and Policies’ by Dr. Alex M. Thomas, Azim Premji University.
<i>History</i>	Field Trips:, Role-Playing, ^[L] _[SEP] Group Discussions, ^[L] _[SEP] Debates, Peer Teaching. Problem-Solving Methodologies: ^[L] _[SEP] a. Case Studies ^[L] _[SEP] b. Research Projects c. Critical Analysis. The Department also organized an online certificate course on “Introduction to Archaeology”.
<i>English</i>	The English department teachers have developed innovative methods of teaching-learning. They explored and made use of the available technological tools to educate the students. They used tools and platforms like Google Meet and Zoom to take classes and tutorials and conduct regular discussions. Google Classroom was used as an alternative to offline classroom teaching and interaction. Regular classwork and homework was given on google classroom. Attendance of the students was maintained in this space. Study material was shared on google classroom to help students in the times of the pandemic. To enhance the learning experience, the teachers used PPT, YouTube and other audio-visual methods
<i>Commerce</i>	Assignments, Remedial Classes, Class Tests, Class Group Presentations, Quiz, Projects, Role Play, Group Discussions, Case Studies, Debate, Presentations by Students, Viva, Group Discussions, Practical Problems, Practical Lab, Problem solving approach through Case Study Method, Theory/ numerical with examples, End Semester Exam. The departmental society that is Commercium had organized various seminars on “Gamification of Finance” by a Financial Expert Dr. Shikha Gupta and “How to dominate the next decade?” by Mr. Mudit Tadav
<i>Political Science</i>	Faculty members of the department of Political Science, PGDAV College, University of Delhi used participative methods, question and answer(Q&A), roleplay method, presentation method and class discussions in order to help students develop a shared understanding about a theme mentioned in the respective syllabi of the papers. They also

	<p>promoted students to take part in the NSS, NCC, talks, lectures, seminars, conferences, etc. held in the college and across colleges. Students were also taken on academic student trips so that they develop experiential learning. The departmental Society that is Samvad organized session on the topic “Gender Equality and Federalism”</p>
<i>Physical education</i>	<p>As we know our education system has become learner centered and thus we should transform our teaching methods also towards this approach. Experiential learning is an engaged learning process whereby students “learn by doing” and by reflecting on the experience.</p> <p>The physical education department of the college organized various activities like “Shri Kalkaji run” from college to Shri Kalkaji mandir for students, teaching and on-teaching staff of the college.</p>
<i>Mathematics</i>	<p>The department practices a teaching methodology which focuses on imparting education through a student centric approach. This methodology helps to transform students from being relegated to the role of passive recipients to active and involved stakeholders, apart from boosting their confidence and encouraging independence. Since students vary in their ability to comprehend and absorb it is not possible to address the needs and expectations of individual students and expect a uniform learning outcome from them all in a teacher centric class. The teacher facilitates learning by allowing each individual student to comprehend at their personal level by ensuring their involvement in class activities so that they can absorb and grasp information at their own pace. The Departmental society Anant organized a Webinar on the topic” An introduction to non-Euclidean Geometry” by Prof Krishnendu Gangopadhyay. They also organized a Webinar in collaboration with Computer Science department on the topic “Blockchain: Impact on Industry 4.0 & Future”</p>
<i>Computer Science</i>	<ol style="list-style-type: none"> 1. Students are given Weekly quizzes by many faculty members, so as to gauge their progress throughout the semester. 2. Various Seminars/Workshops/Competitions are conducted by students for the students in the various clubs under the Computer Science Society, Parikalan. This helps the students in honing their leadership, technical and soft skills. 3. Presentations by students are incorporated as part of internal assessment, wherever possible. The syllabus generally covers fundamentals, these presentations become a platform to learn the latest technology in a particular field. 4. The Google Classroom is created for most of the subjects/papers. Reference material, Assignments, previous year question papers, class notes (lecture ppts/pdfs/video links) etc. posted on these google classrooms. The students get one point stop for each subject because of these classrooms on google. Also, it becomes easier for students as well as faculty members to gauge the progress as well as grading. They also organized a Webinar in collaboration with Mathematics department on the topic “Blockchain: Impact on Industry 4.0 & Future”
<i>Statistics</i>	<p>The statistics department involves its students into experiential learning by class tests, assignments, quizzes. Sankhyiki-The statistics society of the college had organized</p>

	various events during the year for the academic and overall development of the students. The department also organised a Session on “Opportunities for Statistics Students in Government Sector”.
Environmental Sciences	The Environmental sciences department provides experiential learning to the students. They undertook various projects based on the environment during the year. The environmental science laboratory in our college provides opportunities to the students to work on projects. Geo crusaders is the environmental sciences society of PGDAV college. The mission of Geo-crusaders is to create awareness and motivate students towards conservation of environment. The society had arranged seminars and lecture series for the students.
Sanskrit	<p>संस्कृत विषय को पढ़ने वाले बच्चे खासतौर पर पीजीडीएवी महाविद्यालय में ऑनर्स या प्रोग्राम पाठ्यक्रम के बच्चे मानसिक रूप से नामांकन लेते समय से ही तैयार होते हैं कि मुझे संस्कृत और वेद का परिचय कराया ही जायेगा। इसलिए संस्कृत विभाग के सभी अध्यापक संस्कृत को सहजता, सरलता और बच्चों के मानसिक स्तर को ध्यान में रख कर ही अध्यापन कार्य करते हैं। कई बार इस तरह के बच्चे भी संस्कृत के पाठ्यक्रम में प्रवेश ले लेते हैं जिनकी संस्कृत में खास गति नहीं होती है। जैसे बच्चों को पाठ्यक्रम के अतिरिक्त संस्कृत की प्राथमिक जानकारी देने का प्रयास किया जाता है। भाषा पक्ष में शुद्धता की जगह भाषा का संस्कार पैदा करने का प्रयास करते हैं। हर शैक्षणिक सत्र में इसीलिए संभाषण शिविर आयोजित किया जाता है। पाठ्यक्रम सामग्री में विषय पक्ष पर ही मुख्य रूप से फोकस होता है। भाषा का ज्ञान छात्रों की सामूहिक सहभागिता से अत्यंत सुकर हो जाता है। कक्षा में विषयगत ज्ञान हेतु छात्रों को प्रायोगिक ज्ञान हेतु भी प्रोत्साहित किया जाता है। यथा आयुर्वेद के अध्ययन हेतु प्रायोगिकता अनिवार्य है।</p> <p>इस प्रकार अनुभवात्मक शिक्षण हेतु प्रायोगिक विधि एवं केस स्टडी, सहभागी शिक्षण हेतु सामूहिक चर्चा और सहयोगी परियोजनाएँ तथा समस्या निवारणात्मक पद्धति हेतु परियोजना आधारित शिक्षण विधि का विभाग द्वारा उपयोग किया जाता है।</p>
Hindi	<p>हिंदी विभाग द्वारा साहित्य के नवीन संदर्भों और विषयों को केंद्र में रखकर एक व्याख्यानमाला का आयोजन किया गया। इसके प्रथम व्याख्यान में 13 अगस्त, 2021 को विभाग की वरिष्ठ प्राध्यापिका डॉ. वीणा ने हिंदी साहित्य में गद्य के विकास को रेखांकित करते हुए टीका, अन्वय और वार्ता साहित्य के महत्त्व पर प्रकाश डाला।</p> <p>विभागीय व्याख्यानमाला के अंतर्गत 28 अगस्त, 2021 को हिंदी विभाग के वरिष्ठ प्राध्यापक, समीक्षक और समसामयिक राजनीतिक मुद्दों के प्रमुख विश्लेषक डॉ. अवनिजेश अवस्थी ने भक्तिकाल के संदर्भ में अपने महत्त्वपूर्ण और नवीन विचार प्रस्तुत किए। व्याख्यानमाला के दौरान महाविद्यालय की प्राचार्य प्रो. कृष्णा शर्मा और हिंदी विभाग के सभी प्राध्यापक उपस्थित रहे।</p> <p>आजादी के अमृत महोत्सव की कड़ी में हिंदी विभाग, पी.जी.डी.ए.वी. महाविद्यालय और हिंदुस्तानी अकादमी, प्रयागराज के संयुक्त तत्वावधान में हिंदी साहित्य में राष्ट्रीय चेतना के स्वर विषय पर एक दिवसीय राष्ट्रीय संगोष्ठी का सफलता पूर्वक आयोजन किया गया। संगोष्ठी के उद्घाटन सत्र की अध्यक्षता हिंदुस्तानी अकादमी के अध्यक्ष डॉ. उदयप्रताप सिंह ने किया। स्वागत वक्तव्य पी.जी.डी.ए.वी. महाविद्यालय की प्राचार्य प्रो. कृष्णा शर्मा ने दिया।</p>
