EARTH DAY- 2021

Earth Day, an international event celebrated around the world to pledge support for environmental protection. The year 2021 marks the 51st anniversary of the annual celebrations. This year's theme for Earth Day was 'Restore Our Earth'. This year's theme focuses on natural processes, emerging green technologies, and innovative thinking that can restore the world's ecosystems. In 2009, the United Nations designated April 22 as 'International Mother Earth Day'. "Recovery from the COVID-19 pandemic is a chance to set the world on a cleaner, greener, more sustainable path," said UN Secretary-General António Guterres in a statement. On this great occasion a **webinar** was organized to create awareness where **Dr. Binota Thokchom**, from **Manipur University**, delivered a lecture and motivated the students. "Mother Earth is clearly urging a call to action. Let's remind more than ever on this International Mother Earth Day that we need a shift to a more sustainable economy that works for both people and the planet. Webinar was attended by around 100 participants.

International Day for Biological Diversity- 2021

WORLD ENVIRONMENT DAY- 2021

Society organized One Day International Seminar to celebrate World Environment Day on June 5th 2021, at 5 pm with the theme of "Ecosystem Restoration". Our Chief Guest was Prof. Radhey Shyam Sharma (Dept. of Environmental Studies, University of Delhi) and Guest of Honour Ms. Anali Bustos (Ph.D. University of Buenos Aires, Argentina). The seminar was attended by more than 200 people. It was a very knowledgeable and interactive session too that made it a grand success.

Our speakers spoke about the theme of the day. Ecosystem restoration means preventing, halting and reversing this damage – to go from exploiting nature to healing it. Ecosystem restoration is a global undertaking at a massive scale. It means repairing billions of hectares of land – an area greater than China or the USA – so that people have access to food, clean water and jobs. It means bringing back plants and animals from the brink of extinction, from the peaks of mountains to the depths of the sea. But it also includes the many small actions everyone can take, every day: growing trees, greening our cities, rewilding our gardens or cleaning up trash alongside rivers and coasts. Restoring ecosystems carries substantial benefits for people. For every dollar invested in restoration, at least seven to thirty dollars in returns for society can be expected. Restoration also creates jobs in rural areas where they are most needed.

VAN MAHOTSAV WEEK- 2021

On 7th of July 2021, we celebrated the Van Mahotsav Week: A discussion on the event of Van Mahotsav on conservation of trees and forests at 5pm with our Guest Speaker **Mr. Sahiram Bishnoi (Asst. Director Horticulture, Delhi Development Authority)**. About 250 people were present in this event.

During the event, Mr Bishnoi enlightened us with the importance of Van Mahotsav and how it changes things on a global scale. Van Mahotsav is an annual pan-Indian tree planting

festival, occupying a week in the month of July. During this event millions of trees are planted. Union Environment Minister Prakash Javadekar on July 1, 2021, kickstarted the week of Van Mahotsav 2021 with the plantation of Parijat sapling in New Delhi. On Van Mahotsav, he urged people to plant more and more trees to create a healthy atmosphere. The first week of July is just the right time for planting trees in most parts of India since it coincides with the monsoon.

INTERNATIONAL DAY FOR PRESERVATION OF OZONE LAYER, 2021

We organised a National Seminar with Dr. Ram Pravesh Kumar (Asst. Prof., School of Environment Studies, JNU) on the occasion of International Day for the Preservation of the Ozone Layer, 2021 on Sep 16th 2021. This informative session had an active participation of about 230 people.

Dr. Ram Kumar familiarised us with the concepts of ozone layer, preservation and the harmful effects if not taken care of. The ozone layer, a fragile shield of gas, protects the Earth from the harmful portion of the rays of the sun, thus helping preserve life on the planet. The phaseout of controlled uses of ozone depleting substances and the related reductions have not only helped protect the ozone layer for this and future generations, but have also contributed

significantly to global efforts to address climate change; furthermore, it has protected human health and ecosystems by limiting the harmful ultraviolet radiation from reaching the Earth.

NATIONAL POLLUTION CONTROL DAY, 2021

The GEO CRUSADERS organised yet another **One Day National Seminar** to celebrate **National Pollution Control Day 2021** on Dec 2nd at 3PM. The Chief Guest for this Seminar was **Dr. Priyanka Verma** (Asst. Prof., Dept. of Botany, Kalindi College, University of Delhi). This event had the participation of 250 people.

The theme this year was to improve pollution awareness and push governments to adjust policies to reduce pollution's impact and Dr. Priyanka took us to the road to improve pollution awareness. National Pollution Control Day 2021 is observed annually on December 2 to remember the people who lost lives during the 1984 Bhopal Gas Tragedy. It is also the day to raise awareness about the hazards of air pollution. While more measures need to be taken to address the problem of air pollution in India, it is at the same time important to make certain lifestyle changes that protect us from the harmful effects of pollution.

1st International Virtual Conference:

Department of Environmental Studies, PGDAV College, University of Delhi in collaboration with Mohanlal Sukhadiya University, Udaipur, Rajasthan & Young Social Scientists Association of India (YSSAI), organized two days 1st International Virtual Conference on "Living With Ecological Balance: Life Style, Economy, Environment & Sustainability" on the 10th and 11th of July 2021. The speakers for the day were Prof D.S Rajput (Ex HOD, Dept. of Sociology, Dr. H.S. Gour University, M.P, India) along with Prof. Tanu Jindal (Director- AIETSM, Amity University, U.P.) and Dr. Karan Singh (Research Scientist,

NYUG School of Medicine, Dept. of Cell Biology, New York, USA). The event witnessed the participation of nearly 500 participants.

The speakers made us aware of the benefits of Ecological Prosperity and its Recent contributions to ecological economics and related social sciences indicate that issues such as climate change, resource depletion and environmental degradation cannot be effectively addressed under conditions of continued economic growth. Building on the growing literature that interprets prosperity 'beyond' economic growth, they presented a three-dimensional concept to operationalise prosperity in terms of *ecological sustainability*, *social inclusion*, and the *quality of life*. In order to achieve a decent minimum of prosperity moderate levels of the material living standard are sufficient. Further increases in the material living standard do not lead to significant additional prosperity; instead they cause greater environmental harms. The speakers concluded by highlighting potentials for prosperity for each of the 'prosperity regimes' and corresponding policy challenges.

हिंदी विभाग

विभाग द्वारा साहित्य के नवीन संदर्भों और विषयों को केंद्र में रखकर एक व्याख्यानमाला का आयोजन किया गया। इसके प्रथम व्याख्यान में 13 अगस्त, 2021 को विभाग की वरिष्ठ प्राध्यापिका डॉ. वीणा ने हिंदी साहित्य में गद्य के विकास को रेखांकित करते हुए टीका, अन्वय और वार्ता साहित्य के महत्त्व पर प्रकाश डाला। उन्होंने गद्य साहित्य के परिचय और विकास के साथ-साथ उसके सामाजिक प्रभाव पर भी विस्तार पूर्वक अपना विचार रखा। कार्यक्रम का संचालन और धन्यवाद ज्ञापन विभाग के प्रभारी डॉ. मनोज कुमार कैन ने किया।

विभागीय व्याख्यानमाला के अंतर्गत 28 अगस्त, 2021 को हिंदी विभाग के वरिष्ठ प्राध्यापक, समीक्षक और समसामयिक-राजनीतिक मुद्दों के प्रमुख विश्लेषक डॉ. अवनिजेश अवस्थी ने भक्तिकाल के संदर्भ में अपने महत्त्वपूर्ण और नवीन विचार प्रस्तुत किए। उन्होंने साहित्य के संदर्भ में विचार प्रस्तुत करते हुए कहा कि प्रत्येक पाठक और अध्येता का प्रमुख लक्ष्य साहित्य के वास्तविक मर्म तक पहुँचना होता है। बावजूद इसके साहित्य के जिस मर्म तक उसके अध्येता और पाठक अभी तक पहुँचे हैं, वह अंतिम नहीं है। अतः सदैव प्राचीन साहित्य की नवीन दृष्टि से व्याख्या जरूरी है। हमें

लकीर का फकीर नहीं बने रहना चाहिए। डॉ. अवस्थी के अनुसार राम ने रावण का वध करने के लिए अवतार नहीं लिया, बल्कि राम ने व्यक्ति विशेष के अंदर आत्मविश्वास जगाने, उन्हें एकजुट करने और उनकी मदद करने के लिए अवतार लिया था। उसी तरह कृष्ण का जन्म भयरहित समाज का सूचक है। उनके जन्म ने कंस के भय और आतंक को सामान्य लोगों के मन से दूर कर दिया। उन्होंने हर तरह के मनुष्य को अवसाद से मुक्त कर दिया। व्याख्यानमाला के दौरान महाविद्यालय की प्राचार्या प्रो. कृष्णा शर्मा और हिंदी विभाग के सभी प्राध्यापक उपस्थित रहे। कार्यक्रम का संचालन विभाग के प्रभारी डॉ. मनोज कुमार कैन ने किया।

'चिंतन' हिंदी साहित्य सभा द्वारा स्वतंत्रता दिवस के शुभ अवसर पर विचार संगोष्ठी का आयोजन किया गया। इस विचार संगोष्ठी में स्वतंत्रता आन्दोलन के विभिन्न पहलुओं पर 'चिंतन' हिंदी साहित्य सभा के अधिकतर सदस्यों ने अपने-अपने विचार प्रस्तुत किए।

संस्कृत विभाग व्याख्यान विवरण- 2021-22

संस्कृत विभाग की संस्कृत समवाय समिति के द्वारा 19 अप्रैल 2022 मंगलवार को "वेद व्याख्यान मञ्जरी" व्याख्यान माला के अंतर्गत प्रसिद्ध वैदिक गणित के विद्वान और दिल्ली विश्वविद्यालय के संस्कृत विभाग के प्रो. दयाशंकर तिवारी का व्याख्यान आयोजित किया गया। इस व्याख्यान का विषय "वैदिक वाङ्मय में ज्ञान-विज्ञान परंपरा" रखा गया था। कार्यक्रम का शुभारम्भ दीप प्रज्वलित करके किया गया। संस्कृत की परंपरा के अनुसार मंगलाचरण किया गया।

विषय प्रवर्तन करते हुए संस्कृत विभाग के वरिष्ठ आचार्य डॉ. दिलीप कुमार झा ने कहा कि संस्कृत भाषा ज्ञान-विज्ञान की भाषा है। संस्कृत आत्मा का उद्घोष है, आवाज है, हमारी विरासत है। इस गौरवशाली विरासत को भूला देने की कोशिश की जा रही है। पूजापाठ, दकियानूसी सोच की भाषा संस्कृत को माना जाने लगा है। जबकि वास्तविकता यह है कि संस्कृत प्रगतिशील सोच, विचारों, गतिविधियों की भाषा है। प्राचीन भारत के किसी भी तरह के ज्ञान विज्ञान की बात करते हैं तो उसके मूल संस्कृत में देखने को मिलता है। जहाँ तक विज्ञान का सवाल है तो विज्ञान, दर्शन, धर्म की चर्चा एक साथ होती है। जितने भी बड़े दार्शनिक रहे हैं, वे सारे वैज्ञानिक भी रहें हैं। 1687 ई. में न्यूटन सेव के वृक्ष के नीचे लेटे थे। पहले भी सेव गिरता था। उस समय भी गिरा। तब न्यूटन ने गुरुत्वाकर्षण का सिद्धांत दिया। परन्तु उससे हजारों वर्ष पहले महर्षि ऋणाद ने कहा था कि प्रत्येक क्रिया के बराबर प्रतिक्रिया होती है। हम अपनी विरासत को भूल गए हैं। इसी तरह डॉ. झा ने आर्यभट्ट, बौधायन इत्यादि महर्षियों का उल्लेख करते हुए, उनके योगदान को रेखांकित किया। संस्कृत विभाग के ही आचार्य और प्रभारी डॉ. गिरिधर गोपाल शर्मा ने अपने संबोधन में कहा कि यह हम सब के लिए परम सौभाग्य का विषय है और यह संयोग भी है कि जिसके विज्ञान और सोच से यह वेद-व्याख्यान मञ्जरी व्याख्यानमाला को हम लोगों ने प्रारंभ किया था वे आज यहां स्वयं उपस्थित हैं। पूर्व प्राचार्य डॉ. मुकेश अग्रवाल सर की प्रेरणा से यह बौद्धिक श्रृंखला 2017 में प्रारंभ की गई थी।

डॉ. मुकेश अग्रवाल ने बच्चों को संबोधित करते हुए कहा कि आपके इस व्याख्यान की महत्ता तभी है जब आप उस वैदिक ज्ञान की चर्चा अपने मित्र, घर परिवार में करेंगे। गौरवशाली अतीत को अपने डी ए वी के बच्चों को बताने के लिए हमने यह व्याख्यानमाला प्रारंभ किया था। प्राख्यात राष्ट्रवादी विचारक

GGP

प्रो. अवनीजेश अवस्थी ने इस अवसर पर कहा कि बाबा साहेब अम्बेडकर ने संस्कृत को राष्ट्र भाषा बनाने के लिए सबसे पहले कहा था। परीक्षा के बोझ के कारण बच्चे विज्ञान और दूसरे पहलू पर ध्यान नहीं दे पाते। जेएनयू के आनन्द रंगनाथन जैसे लोग बहुत ही मेहनत से संस्कृत के ज्ञान विज्ञान पर काम कर रहे हैं। मुझे इस बात का मलाल है कि मैं मूल संस्कृत पढ़ नहीं पाता, बोल नहीं पाता। हमारे मित्र नरेन्द्र कोहली भी बराबर यह कहते थे कि संस्कृत में अथाह ज्ञान राशि है।

इस व्याख्यानमाला के मुख्य वक्ता प्रो. दयाशंकर तिवारी ने बहुत ही विस्तृत व्याख्यान दिया। जिसमें उन्होंने कहा कि वैदिक वाङ्मय केवल वेद नहीं है बल्कि वेद के साथ साथ ब्राह्मण और वेदांग शिक्षा, कल्प, निरुक्त, व्याकरण छंद और ज्योतिष भी है। वेद इष्ट प्राप्ति और अनिष्ट परिहार के अलौकिक मार्गों को भी बताते हैं। वेद इंसान बनना सिखाते हैं। प्रकृति के पुजारी वेदों के रचनाकार है। वेद में प्रकृति का मानवीकरण किया है, ऋषि सबसे बड़े और सबसे प्रमुख वैज्ञानिक थे। उन्होंने ऋग्वेद, अथर्ववेद के मंत्रों के आधार पर विज्ञान के आधुनिक स्वरूप को समझाया। अंत में धन्यवाद ज्ञापन और शान्ति पाठ के साथ कार्यक्रम का समापन हुआ। इस अवसर पर विभाग के सभी आचार्य उपस्थित थे।
