

Student Satisfactory Survey (2018-19)

The College puts tremendous emphasis on imparting quality education and experience to its students. One of the surest ways to know the efficacy of the systems in place is to hear from the students themselves. Feedback from students is considered essential by the College and it often forms the strategic fulcrum of many administrative and academic decisions. This agency of the students is amply conveyed to them from the very beginning of their time here in College. Students are aware that they can partake in contributing to the quality of their College in various ways. The first and foremost is direct communication to the Principal. This can be done by in-person meeting or by email. Student feedback form is always available in the administrative office. A suggestion box is kept in the College foyer, and feedback received through the box is opened and reviewed promptly. Faculty mentors invite suggestions from students from time to time as part of the mentorship programme. This is to ensure that students avail the facilities provided by the College to the fullest. Teachers-in-charge gauge students' level of comfort in terms of classroom teaching quality, mentorship programme, departmental society and co-curricular activities and the curriculum itself, which the University changes from time to time. Students' feedback is solicited not only from academic angles, but also about infrastructural amenities. Thus, students can share their precious thoughts to working committees responsible for the smooth functioning of sections like Canteen, Housekeeping and Sanitation, College garden, Security, Grievance Redressal Cells etc., by sharing their experience of these features of the College. Their words of appreciation or constructive suggestions drive the decision making body of the College into swiftly implementing change or alternatives, and enhancing features that can benefit the most important stakeholders – the students.
